# Qu'est ce qui me passionne ?

We all have certain things that we are interested in.  
If we take intercultural exchange, what are the subjects which attract us the most ? Which areas of profession would we prefer to collaborate with?

The mountains and forestry, the rural development, education and the transfer of knowledge, volunteerism, green landscaping, art and literature, etc...

# Quel pays ou culture me fait rêver ?

Working with foreign counterparts is an enriching process. It is an opportunity to exchange ideas, experiences and even create and innovate new ways of doing some routine tasks.

It is another excuse for travelling to a different part of the European countries.

# Comment structurer son échange?

Connaître le contexte du sujet choisi sur lequel nous allons échanger.

Example:

Our region has around 54 000 inhabitants. Pure nature enables to pick your local food from the forests and the area is recognized as European Region of Gastronomy. This is a farming region with lots of lakes, forests and safe surroundings. In our area however the population is declining. The young people are very important for the future of our area. Aim is to raise youth's interest for local heritage and cultural mediation. Through the project we want to exchange ideas and develop together how we can enhance young people participation in local development.

# Avoir un objectif en tête

Example of objective of the project:

The idea of the project is to strengthen the cultural and social heritage of the inhabitants of the region, especially young people, facing the decline and aging of the population. Difficult logistics and long distances mean that young people may have difficulty participating in activities. We want to activate young people and strengthen their sense of community.

# Préciser la cible qui va en bénéficier

Example of objectives of targets:(interculturalité)

Our target groups are: youth, people with social disabilities, artists, young active. The aim of the project is to develop attractiveness of environmental and cultural activities by localization, workshops and modernizing local museum with both traditional media and new technologies. This should happen together with different age groups and NGOs. Aim is to raise youth's interest for local heritage and cultural mediation
